Artist, songwriter and producer Fireflake writes music that blurs the lines between pop, singer-songwriter and orchestra. His unique sound with its memorable lines and rich melodies captures pop and musical fans alike.

After numerous single-releases in the past months („Home“, „Ready for a Change“, „Guess Who’s Back“) and gigs from all over Austria to the UK, Fireflake is proud to present his **2nd album „Momentum“**.

Austrian multi-instrumentalist and singer Fireflake’s taste for epic music was fuelled by musicals and Jim Steinman’s writing, while his interest in pop was nurtured by the likes of Justin Timberlake, Mika, Peter Fox, and Jason Derülo. He once again presents his trademark blend of genres: from dreamy to down-to-earth, from acoustic to electronic – with a solid ensemble of pianos and synths, guitar and cajon and more exotic instruments like the Otamatone in his arsenal.

His 2011, 19-track album „Lipsync“ got the fire going and fast-forward 2 live-programs later, he’s well at home on stage: from intimate, acoustic performances to full-out festivals and venues like Arena Wien.

Get swept off your feet by the „Momentum“ and let’s celebrate his latest creation together!
